

Community Relations

School System Cooperation with Area, State, Regional, and National Associations

1500

Membership in recognized associations such as the Connecticut Association of Boards of Education may be maintained by the schools for several reasons, including:

1. In-service education benefits to staff and Board of Education from participation in meetings, conferences, clinics, and conventions.
2. Access to the communication media of such associations, such as newsletters, periodicals, and advisory services.
3. Representation in actions affecting education in general and the public schools in particular.

The Board of Education shall review memberships annually through its budget deliberations. If such memberships are approved, budgets shall include in appropriate accounts funding for such memberships.
