## Graduation Ceremony

5127

There shall be only one district graduation ceremony upon completion of grade twelve in the high school. All other exercises which take place at the time of student completion of elementary and middle school grades shall be referred to by another name.

Graduation ceremonies shall be restricted to those students who have completed the academic requirements as specified by the Board of Education. This includes students who have completed the academic requirements under the program for Adult Education.

The list of academic requirements is available in student handbooks and information packets from school administrators and the office of the Superintendent.

Any student who has fulfilled Board of Education requirements for graduation from the high school shall be granted a diploma; however, participation in graduation exercises may be dependent upon his or her satisfying financial obligations to the school district.

### Out-of-District-Placed Students

Any special needs student who attends a program prescribed through the Planning and Placement Team (PPT) process, upon completion of their senior year at that institution, will have a choice of receiving a diploma from that institution or from Rockville High School (RHS), provided said student has completed all graduation requirements as prescribed by the Vernon Board of Education.
